COMPANY OVERVIEW:

Amama Water and Recycling Company is a leader in water production and environmental sustainability. Founded in 2022, our company combines top-tier water production with innovative recycling solutions, reducing the impact of plastic, leather, and metal waste. Our holistic approach ensures that communities benefit from clean, safe water while we help protect the environment through sustainable waste recycling. Additionally, we offer specialized services to support smaller water businesses by providing high-quality printing for sachet water leather, helping these companies brand and package their products effectively. This makes Amama a one-stop solution for businesses seeking both environmental and operational support.

CORE OPERATIONS:

➤ PREMIUM WATER PRODUCTION:

We produce and distribute bottled and sachet water using advanced purification technologies, ensuring that our water meets the highest international health and safety standards. Our bottled and sachet water is designed for purity and convenience, providing communities with essential hydration in an eco-friendly manner.

➤ **SACHET WATER LEATHER PRINTING SERVICES:**

Amama also supports smaller water companies by providing customizable printing services for sachet water leather. Our printing solutions allow these businesses to enhance their brand visibility and create professional, durable packaging for their water products. By partnering with us, smaller companies benefit from our industry expertise and high-quality printing capabilities.

➤ **SUSTAINABLE RECYCLING AND WASTE MANAGEMENT:**

We actively contribute to the global recycling effort by purchasing plastic, leather, and metal waste, transforming it into new, functional products. The problem we are solving is the increasing demand for sustainable and eco-friendly products in the retail market, driven by growing consumer awareness regarding environmental issues. Retail stores are under pressure to offer products that not only meet their customers' preferences but also align with global sustainability goals. Many retailers struggle to find reliable suppliers who can provide high-quality, recycled materials, resulting in a gap in the market for innovative solutions that promote environmental responsibility.

Additionally, the improper disposal of plastic and metal waste poses significant challenges to local communities and

ecosystems.

Retailers are looking for ways to contribute to environmental conservation while expanding their product offerings. By manufacturing recycled plastic and metal products, Amama premium water and recycling addresses this dual challenge, providing a sustainable product line that appeals to environmentally conscious consumers and helps mitigate waste in the region. Through our efforts, we aim to support retailers in their sustainability initiatives while promoting a circular economy in Nigeria.

Additionally, Amama Premium Water and Recycling provides consulting services to businesses interested in implementing recycling programs and sustainable practices. We aim to educate our partners on the importance of eco-friendly solutions and assist them in incorporating recycled products into their offerings. This combination of manufacturing and consulting positions Amama as a comprehensive solution provider in the recycling industry, enabling us to create meaningful partnerships with retail stores looking to enhance their sustainability efforts while generating a reliable revenue stream.

- **PLASTIC RECYCLING EXPERTISE:** We repurpose plastic waste into durable consumer goods like plastic kettles, cups, plates,

buckets, and shopping bags. This process reduces environmental waste and provides valuable products to consumer

REGULATORY COMPLIANCE AND CERTIFICATIONS:

Amama Water and Recycling Company is fully committed to adhering to regulatory requirements in every aspect of our business. We prioritize certifications that guarantee our compliance with local and international standards in water production and waste recycling.

- **Water Safety Certifications:** Our bottled and sachet water production meets stringent safety regulations, ensuring consumer trust and confidence.
- **Environmental Certifications:** We are certified by environmental agencies for our sustainable waste management practices, demonstrating our commitment to eco-friendly operations.
- **Health and Safety Standards:** We uphold the highest health and safety standards for both our employees and consumers, ensuring our facilities and products meet all safety regulations.

WORKFORCE AND EMPOWERMENT:

Our workforce of 50 dedicated professionals is our greatest asset. Each team member plays an integral role in the smooth operation

of both our water production and recycling divisions. We believe in empowering our employees with continuous training, fostering a workplace culture centered on sustainability, innovation, and excellence.

LEADERSHIP & GOVERNANCE:

Amama Water and Recycling Company is governed by an experienced and visionary board of directors. Their strategic guidance and commitment to environmental stewardship have enabled the company to achieve rapid growth while maintaining the highest standards of business ethics and sustainability. Under their leadership, we continue to set new benchmarks for water production and recycling, with a focus on innovation and community impact.

MISSION:

To provide pure, accessible water while leading innovative recycling initiatives that turn waste into value, promoting a sustainable future.

VISION:

To be a global leader in water production and recycling, fostering solutions that balance environmental sustainability with operational excellence.

VALUES:

- **SUSTAINABILITY:** We are deeply committed to reducing environmental impact through responsible waste management and recycling.
- **EXCELLENCE & QUALITY:** From water production to our recycling services, we never compromise on quality, delivering the best to our customers.
- **INNOVATION:** We continuously explore new methods to improve our processes and provide impactful solutions for both businesses and consumers.
- **COMMUNITY ENGAGEMENT:** We support local businesses and communities through job creation, product offerings, and sustainable practices.
- **INTEGRITY:** We conduct all operations with transparency and a commitment to ethical practices.

WHY CHOOSE AMAMA WATER AND RECYCLING COMPANY?

By choosing Amama Water and Recycling Company, you're aligning with a company dedicated to quality, sustainability, and innovation. We are more than just a provider of clean water and recycled products-we are a partner for businesses looking to improve their brand image, enhance sustainability efforts, and create a positive environmental impact.

Whether you're a customer seeking high-quality water or a business looking for reliable sachet water leather printing or waste recycling services, Amama Water and Recycling Company is your trusted partner in making a difference.

Together, let's create a sustainable future, one sip and one recycled product at a time.

➤ Business Model

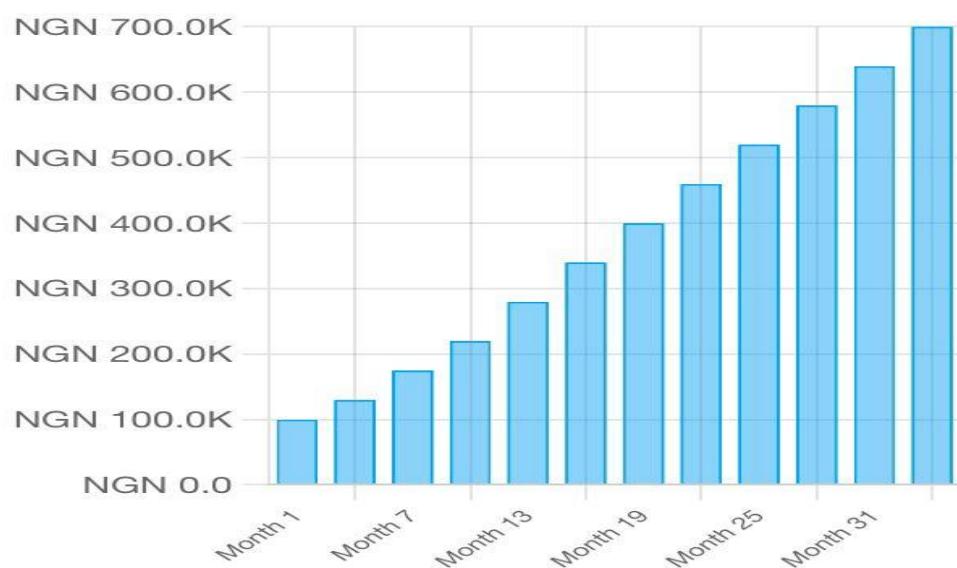

Amama Premium Water and Recircling department of recircling operates on a business model centered around the manufacturing and sale of recycled plastic and metal products. The company aims to monetize its operations by producing high-quality eco-friendly products that meet the increasing demand from retail stores in Nigeria. By leveraging sustainable practices, Amama will sell its recycled products at competitive prices. The pricing strategy not only appeals to the growing number of environmentally conscious consumers but also positions

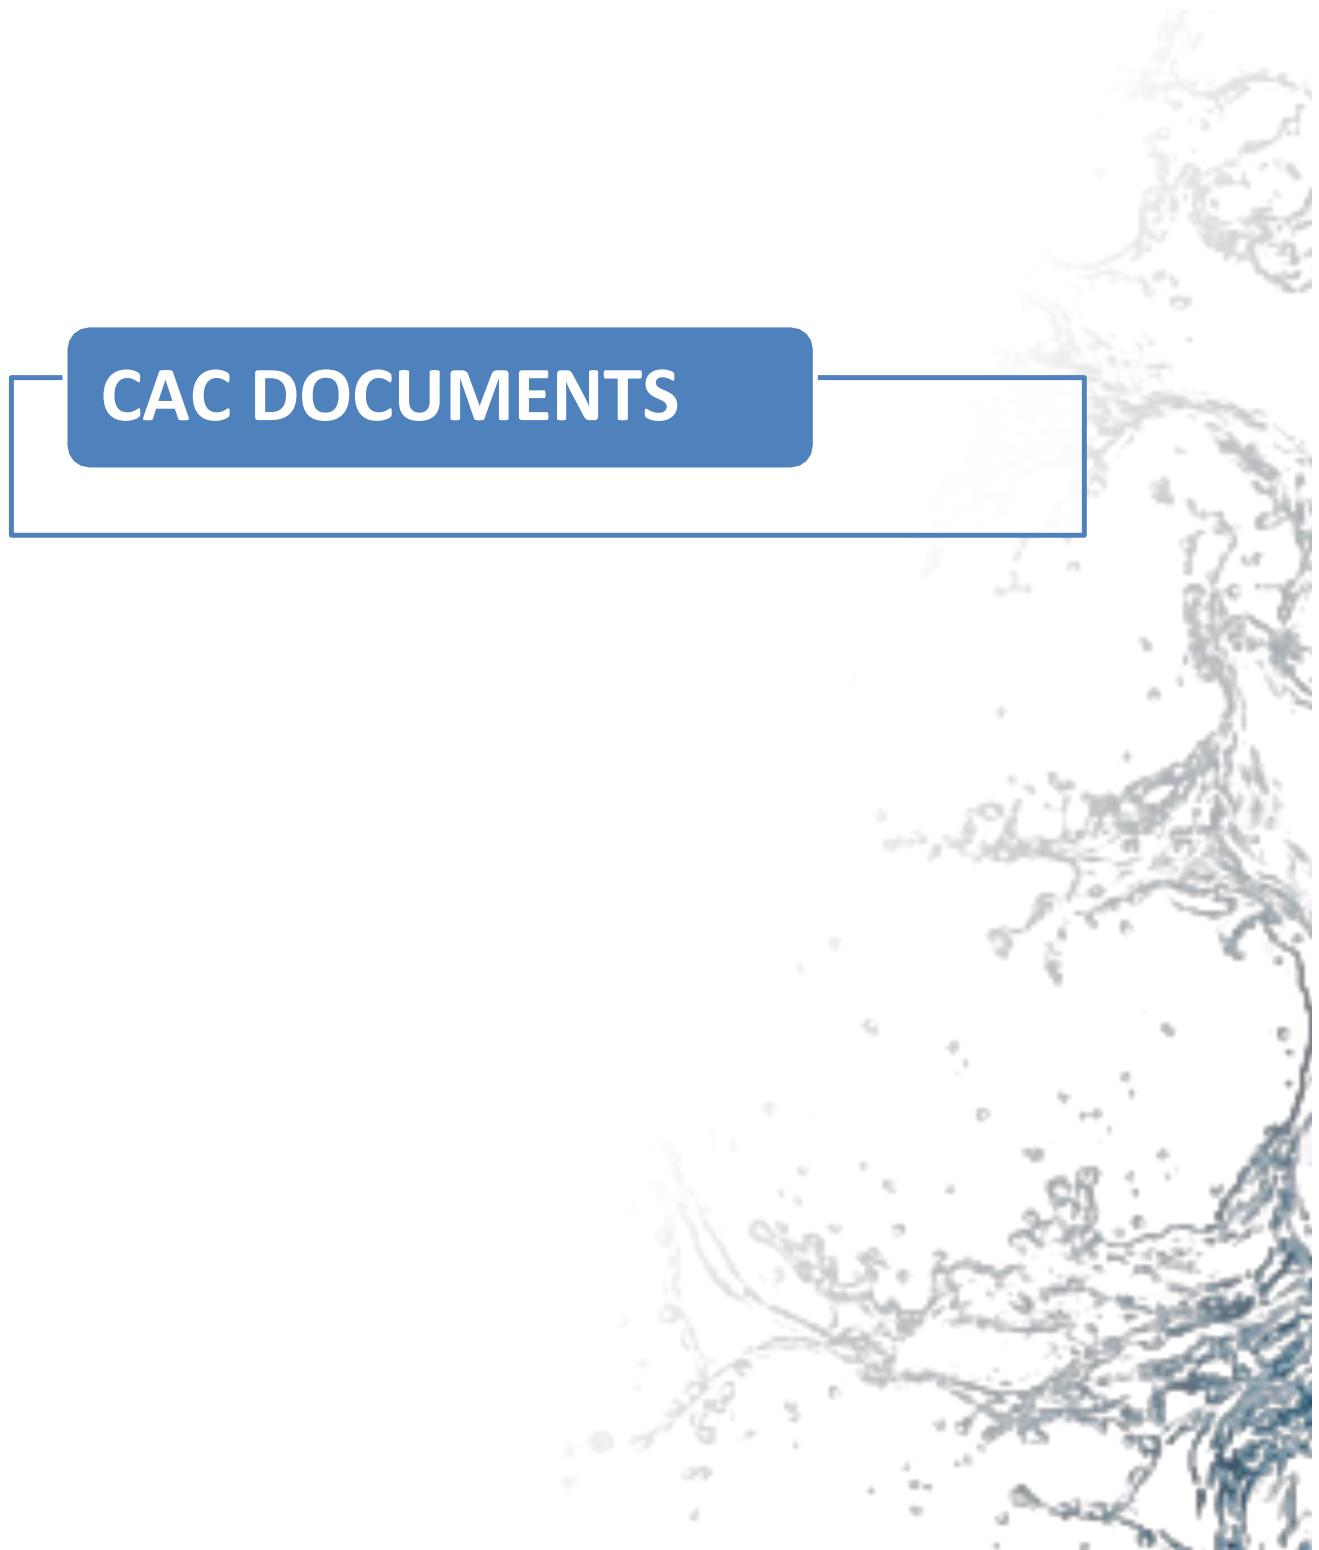

our products as viable alternatives for retailers seeking to enhance their sustainability offerings.

In addition to product sales, Amama will generate revenue through partnerships with retail stores looking to stock eco-friendly items. With a current operational capacity of 10 to 15 staff members and an annual revenue of approximately \$100,000, we are well-equipped to serve around 20 customers per day. Our focus on building strong relationships with retailers will facilitate bulk orders, ensuring a steady revenue stream and fostering brand loyalty. As we seek funding for expansion, our business model underscores our commitment to sustainability while capitalizing on the increasing demand for recycled products in the Nigerian market.
